Survey Questions (With July 2012 Newsletter)

We occasionally have problems with graffiti and vandalism in the pool areas, most likely from people coming in from outside the neighborhood. Another problem is people leaving their trash behind.

1. What would be our best option to address Pool Security? (You can mark more than one.)

- Raise the south pool fence similar to the north pool. (Approx \$10,000)
- Hire a security company to patrol and monitor the pools. (Could get expensive over time)
- Install security cameras and/or an alarm system.
- Plant cactus around the outside of the fence.
- Sign up volunteers from the community to monitor the pools.
- Just continue making the necessary repairs as needed.

Do you have other security suggestions for the pool areas?

2. Would you like to volunteer to help check on the pools regularly?

- Yes No Maybe

3. Are the pools and pool areas maintained adequately?

- Maintained very well
- Maintained above average
- Average/adequate maintenance
- Below average, could use a little more attention
- Poor, needs a lot of work

4. Do you have any maintenance suggestions for the pool areas?

5. How often do you use the pools during the swimming season?

- Often, 4 or more times a month Less than 3 times a month Seldom Never

6. What can we do to make the pools more enjoyable for you and our community residents?

Remember to let us know anytime you see any damage
or anything that needs attention at the pools or around the neighborhood.

For verification: (anonymous entries cannot be counted) (Add any additional comments on the back)

Name: _____ Property Address: _____

Please fill out this survey and mail it to TCCHOA. Or you can drop it in the mail slot at the South Pool.
